EDUCATION

Vellore Institute of Technology <i>Bachelor of Technology in Computer Science and Engineering, CGPA: 8.60</i>	Amaravati, AP 2022 - Present
Narayana Junior College <i>Intermediate, MPC, Marks: 94.4%</i>	Vijayawada, AP 2020 - 2022
S.S. Mahitha E.M High School <i>Senior Secondary Education, Marks: 92.5%</i>	Vijayawada, AP 2019 - 2020

PROJECTS

Twitter Sentiment Analysis - Built a sentiment classification model using Python, NLTK, and Scikit-learn, achieving 88% accuracy. - Developed an automated pipeline for data preprocessing, feature extraction, and model training to enable efficient sentiment prediction.	[GitHub]
Hybrid Deep Learning Model for Brain Tumor Detection in Medical Imaging - Designed a hybrid CNN-GNN deep learning model that classified MRI scans with 92% accuracy for tumor detection. - Achieved 92% accuracy with improved sensitivity and specificity using feature fusion and graph-based relational learning.	[GitHub]
Multimodal Emotion Recognition using Speech and Text - Developed a multimodal emotion recognition system using BERT and Wav2Vec 2.0 for text- and speech-based emotion classification, achieving 86% accuracy. - Implemented Gated Fusion to combine text and audio features, improving contextual emotion understanding from conversational data.	[GitHub]

EXPERIENCE

Artificial Intelligence Extern <i>SmartInternz, Remote</i> - Engineered end-to-end AI/ML workflows, including data preprocessing, model training, and evaluation. - Developed an e-commerce Shipping Prediction model using supervised learning, achieving 90% accuracy and reducing shipping costs.	May 2023 – July 2023
---	----------------------

PUBLICATIONS

Robust Pneumonia Detection with EfficientNet and Image Augmentation - Published an IEEE conference paper proposing an EfficientNetB0-based model for automated pneumonia detection from chest X-ray images, incorporating image augmentation for improved robustness. - Achieved 99.3% test accuracy with strong precision, recall, and F1-score, demonstrating reliable performance for medical image classification in clinical applications.	[Link]
---	--------

TECHNICAL SKILLS

Languages: Java, Python, SQL
Backend Development: Flask, FastAPI, Streamlit
Data Science: NumPy, Pandas, Matplotlib, Seaborn, Statistical Analysis
AI/ML: TensorFlow, Keras, PyTorch, Scikit-learn, Deep Learning
Tools & Technologies: AWS, Git/GitHub, Jupyter Notebook, VS Code

CERTIFICATIONS

- AWS Certified Cloud Practitioner** [Credential Link]
- Develop GenAI Apps with Gemini and Streamlit** [Credential Link]
